PROFESSIONAL SUMMARY

B.Sc. Artificial Intelligence and Machine Learning student interested in full stack development and AI-powered applications. Familiar with frontend and backend technologies and programming languages including HTML, CSS, JavaScript, Python, C++, Kotlin, React, Node.js and MongoDB. Interested in building practical digital solutions and continuing to develop software engineering skills.

EDUCATION

B.Sc. Artificial Intelligence and Machine Learning — **Expected 2028**

Sankara College of Science and Commerce — CGPA: 8.2

TECHNICAL SKILLS

Web: HTML, CSS, JavaScript, React	**Backend & Database:** Node.js, MongoDB
Programming: Python, C++, Kotlin	**Interests:** AI/ML, Full Stack Development

BusTrackRecover — Transportation & Lost-Item Recovery Concept

Concept for helping passengers access bus information and report belongings left during travel. Technologies: Kotlin, Jetpack Compose, Node.js, MongoDB.

EduGuard AI — Student Analytics Concept

Concept exploring student-performance analysis and data-driven indicators for identifying students who may need academic support. Technologies: Python, Machine Learning, Data Analytics.

AgriLink AI — Smart Agriculture Concept

Concept exploring crop-price prediction, demand forecasting and digital connections between farmers and buyers. Technologies: Python, AI/ML, Web Development.

PROJECTS

BusTrackRecover — Transportation & Lost-Item Recovery Concept

Concept for helping passengers access bus information and report belongings left during travel. Technologies: Kotlin, Jetpack Compose, Node.js, MongoDB.

EduGuard AI — Student Analytics Concept

Concept exploring student-performance analysis and data-driven indicators for identifying students who may need academic support. Technologies: Python, Machine Learning, Data Analytics.

AgriLink AI — Smart Agriculture Concept

Concept exploring crop-price prediction, demand forecasting and digital connections between farmers and buyers. Technologies: Python, AI/ML, Web Development.

CAREER OBJECTIVE

To build strong software development skills, learn emerging technologies and contribute to useful, reliable applications through continuous learning and practical project work.
